

USE MANY DEVICES TO SMUGGLE DOPE OVER MEX BORDER

Spare Tires, Empty Water Melons, Empty Cans, Carrier Pigeons Employed.

By JACK R. HORNADY,
(United Press Staff Correspondent.)

DALLAS, Texas, Oct. 31.—Like hoodlums, the smuggling of narcotics has become a science.

Means of bringing "dope" into America for use by the nation's million drug addicts are no longer slipshod, but at times indicate almost "inspired cleverness" on the part of the smugglers, according to narcotic inspectors working along the Mexican border.

Carrier pigeons, hollow crutches, spare automobile tire, "plugged" watermelons, and other such apparently innocent objects are being used by the great ring of smugglers, bound together by the ties of mutual protection in bringing dope into the country.

John E. Wells, narcotic inspector, here, who has recently worked along the border, outlined for the United Press some of the ramifications of the vast "dope" smuggling syndicate now engaged in illegally importing thousands of dollars worth of drugs every week.

Until federal agents caught them too often, run runners used the spare tire of their automobiles for bringing tequila over the border, according to Wells. But now dope smugglers have seized upon their plan, and have devised an unique method to prevent discovery. They will place a large quantity of dope in a hollow tube, which they carry with the compressed air inside of their inner tube. Inspectors, examining the tire, usually find their air in it, and the presence of the inner-tube remains a secret.

Another method is the "plugged" watermelon scheme. The meat of the melon is taken out and a rubber sack containing narcotics placed inside the rind. The trick was discovered when one of the dope runners dropped a melon.

Recently, an aged Mexican, so feeble that he walked with the aid of crutches, made his way across the international bridge at El Paso. He was suspected and followed. When approached by officers he seemed rejuvenated, for, dropping his crutches, he ran like a high school boy. Investigation revealed the crutches were hollow and contained a quantity of cocaine.

Use Carrier Pigeons.
The latest method reported to narcotic inspectors is the use of carrier pigeons. The birds are shipped into Mexico where small packages are fastened to them. They are freed and return direct to their pens this side of the border, where the "shipment" is received.

Federal agents say that large quantities of whiskey, some of it are of very high grade, are being shipped from Mexico to the United States by aeroplane. The whiskey is largely imported and much of it is Scotch. The largest customers are said to be in the oil camps, where money is always plentiful and where high prices are paid for the smuggled goods. A recent banquet in Kansas oil fields, was recently reported to have been enriched by several cases of champagne brought from Mexico by plane.

Disorganized conditions across the Mexican border make an attempt to cope with the liquor smuggling from the other side impossible and owing to the many planes flying on the American side, Texas rangers and dry agents are unable to solve the problem from the American side.

The airfield owned by Uncle Sam at the San Antonio army base frequently fills the air with planes and many ranchers in that country of magnificent distances own and operate their own planes. It is virtually impossible to pick out the drug and liquor smuggling planes.

U. S. COFFEE DRINKERS.
BERLIN (By U. P.)—The United States drinks more coffee per capita than any other nation in the world, according to figures made public here. The annual consumption in the land of prohibition totals 5.78 kilograms per head or 12.715 pounds for every man, woman and child. Belgium drinks almost as much. Her consumption totals 5.65 kilograms; France 5.54; Italy 5.32; Germany 5.6; Austria 4.4 and England 3.2.

KOPPER KETTLE CLUB CIGARS.
Guaranteed all imported filler with Sumatry wrapper. All dealers. Adv.—232-17.

Thin? Run-down?
Sure Way to
Get Right Weight

Increase Your Red-Blood-Cells That's the Sure Way! S. S. S. Builds Blood-Cells; This Means Strength!

Do you know why insurance companies refuse to insure a great many men because they are under weight? Simply because they are under weight!

often proves low fighting-power in the body. It often means you are minus nerve-power, minus red-cells in your blood, minus health, minus energy, minus vitality. It is serious to be minus, but the moment you increase the number of your red-blood-cells, you begin to become plus. That's why S. S. S. since 1901, has meant to thousands of underweight men and women, a plus in their strength. Hollow cheeks fill out. You stop being a canny-locker. You inspire confidence. Your body fills to the point of power, your flesh becomes firmer, the age lines that come from thinness disappear. You look younger, firmer, happier, and you feel it, too, all over your body. More red-blood-cells! S. S. S. will build them. Ladies and gentlemen, a pretty, boy face doesn't make you look very important or pretty, does it? Take S. S. S. It contains only pure vegetable medicinal ingredients. S. S. S. is sold at all drug stores in two sizes. The larger size bottle is the more economical.

S. S. S. makes you feel like yourself again

Ford Negotiating for Purchase of Half Million Ton Coal Mine

\$10,000,000 Deal Reported Under Way—Acquisition of Property Would Save 40 Cents a Ton in Freight.

PITTSBURG, Oct. 31.—A coal land deal involving an estimated value of \$10,000,000 was reported to be in process of negotiation here today between Henry Ford, of Detroit, and the Wayne Coal Co., the largest bituminous mine stripping operators in the world, approximately 30,000 acres of choice land in Harrison, Jefferson, Perry and Coshocton counties in Ohio and Washington county in Pennsylvania are the plum for which Ford is reported to be here to purchase.

Samuel M. Dunbar, president of the Wayne company, when asked point blank whether or not such a deal was being negotiated, said:

"I can neither deny nor affirm the report. I am bound by the seal of confidence which prohibits discussion of any phase of this question."

Ford could not be located at any of the hotels or clubs and one report said he was a guest of Mr. Dunbar. The latter refused to say whether Mr. Ford was in town.

The coal property reported under consideration produces about 4,000 tons a day under normal conditions with an average of 500,000 tons annually. If Ford gets this property,

he will save 40 cents a ton freight differential due to the proximity of his railroad to the field and to the rate making scheme of railroads in allowing the differential on coal from the Ohio field in question.

Several other large industrial corporations are also reported after the Wayne company's holdings.

RECOVERS DAUGHTER
AFTER LONG INTERVAL

TIFFIN, O., Oct. 31.—(By U. P.)—When Floreta Dumit was one year old her mother tucked her into a baby basket and started from Smyrna to Beirut, Syria, to visit relatives.

Mother and child, along with the relatives they were visiting, were driven from their home by Turks who at that time were invading Syria. They fled with hundreds of other refugees and a few years later, during the world war, Mrs. Dumit died of starvation.

The other day Floreta, now 18, returned to her father, Charles Dumit, a Tiffin confectioner. Dumit had given his family up as dead 15 years ago. Distant relatives, not track of the girl and informed her father of her whereabouts.

He spent two years corresponding with foreign officials before securing permission to bring Floreta to America.

Rail Labor Board Near End of Existence, View

WASHINGTON, Oct. 31.—(By U. P.)—Events of the past two days have served to make more difficult of accomplishment the determination of President Harding to save the railroad labor board from abolishment at the hands of congress this winter.

The board's action in officially denouncing the principle of the "living wage" as put forth by the railroad brotherhoods, and its refusal to use that principle as the basis for a new, all around wage boost to rail workers, has renewed and strengthened the demand that the board be wiped out.

The fresh resentment against the board is not confined to labor supporters in congress. In other ranks, the board's statement attacking the "living wage" theory was characterized as an "unnecessary" and "bunglesome" affair and one that constitutes new evidence of the fact that the labor board is serving no useful function and should be abolished.

Bring Swiss to U. S. to
Cultivate Mountains

DENVER, Colo., Oct. 31.—Plans are being perfected here for bringing to the mountain sides and valleys of the Rocky Mountain region, young Swiss dairymen to engage in cheese and butter making in this state and possibly in Wyoming and Utah.

Two colonies of at least 50 young industrious Swiss will be brought from Switzerland next spring and established on suitable tracts of land where they may carry on profitably the dairying activities as in their native land.

John H. Zingre, prominent native of the Bernese-Oberland country in Switzerland, famed for its excellent dairy products, has completed a tour of investigation of likely sites for Swiss colonies in fertile mountain sections.

Intensive cultivation of the mountainous regions would be of tremendous benefit to the entire state. If the enterprise is successful, colonization will be carried on more extensively.

WOMEN! DYE THINGS NEW IN "DIAMOND DYES"

Each package of "Diamond Dyes" contains directions so simply any woman can dye or tint her old worn, faded things new. Even if she has never dyed before, she can put a rich, fadeless color into shabby skirts, dresses, waists, coats, stockings, sweaters, coverings, draperies, hangings, everything. Buy Diamond Dyes—no other kind—then perfect home dyeing is guaranteed. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton, or mixed goods. Diamond Dyes never streak, spot, fade, or run.
